

Seat Number _____

I spent _____ hours revising for this exam. I am expecting to get _____% for Question____, _____% for Question____.

and _____% for Question____.

	This is what I did	I would have liked to have done this but didn't manage it	I tried this but did not find it useful or effective	I did not think this was necessary	I am going to do this next time
I had a timetable in mind for organising my revision so that I did not leave everything until the last minute					
I visited the library and spent time trying to identify the best sources for each essay					
I used a range of sources for each essay and remembered outline references and/or quotes					
I made notes in the revision lecture and followed tutor advice					
I re read the essays I did last term and made sure I understood their strengths and weaknesses					
I used the feedback I had received from other assignments to improve the standard of my exam essays					
I wrote a draft essay for each one					
I practiced writing essays under simulated exam conditions					
I discussed what to include in each essay with friends					
I asked for tutorial support when I was finding something difficult to understand					
I was well organised and brought everything I needed to the exam to make my work neat and easy to read.					
I had a good system e.g. mind map for remembering the key points I wanted to make in each essay					
I allowed time at the end to read my work through					

Unlike other assessments you do not get your exam script back once it has been marked you just get a mark. The space below will be used to give you some brief feedback. Please identify particular aspects of your work which you would like feedback on.
