

Dear All,

Thank you for your interest to date in the Walk2COP27 initiative and everything you are doing to mobilise against climate change.

This communication is to let you know that registrations for members, employees, friends, family, students etc participating in this climate action initiative are now open. Registering will enable organisations, teams, and individuals to participate by tracking their kilometres travelled on an app in their own locations. Trees will be planted by the [Jane Goodall Institute](#) for kilometres travelled (walked / run / cycled or travelled in a wheelchair).

We encourage you to register and [join Team Kings College London](#), and engage with the Walk2COP27 townhalls and clubhouse sessions. We have partnered with Walk2COP27 to encourage collective climate action and are involved in the following activities:

- [Walk2COP27 London Townhall](#) (26th of September, 12.30-4.30pm, hybrid): King's is hosting this Townhall meeting at Science Gallery London. It will showcase the way climate change is impacting London and the solutions that are being deployed. The event will focus on Transport & Climate and will feature a keynote speaker, two panel discussions, and a drinks reception. This event is part of the 100th anniversary programme for the Department of Geography at King's.
- [Clubhouse event with Professor Frans Berkhout](#) (5th of October, 6-7pm, online). This event will focus on "Adapting to climate change - how far can we go?"

If you have questions, please contact us at support@walk2cop27.com.

How you can register

Participants can register on [atlasGO](#) and join our team from 1 September. The official 45-day journey to #COP27 will start on Thursday, 22 September.

1. Go to this [link](#) and click on the 'Register Here' button.
2. Select the 'Free Registration' option and click 'Confirm'.
3. Complete your personal information and click 'Next'.
4. Confirm your age and indicate that you understand the terms and conditions.
5. Click 'Submit' and it will prompt you to create an account.
6. Complete your account details and accept the terms and conditions.
7. Now you join team "**Kings College London**", see [here](#).
8. The next window allows you to create a personal page and fundraise, [see here](#). Fundraising is optional, but all funds raised will go to our partner the Jane Goodall Institute.
9. To connect your mobile device, download the atlasGO app from your AppStore / Google Play.
10. Log in and you will land directly in your challenge.

Alternatively, you can download the atlasGO app directly and put in the code "walk2cop27".

What to do once you are registered

- **Diarise** the start of our journey for 22 September.
- **Share** your intent to walk with purpose with friends and followers on social media. You can access social media posts [here](#)
- **Check out** how to participate on the W2COP27 [website](#)
- **Learn more** on how to set up your personal page and if you'd like to fundraise [here](#)
- **Encourage** members, employees, friends, family, students etc to join you to walk with purpose!
- **Follow Walk2COP27** to stay up to date with the latest news about the initiative.

Walk2COP27 Background

[Walk2COP27](#) sets out to accelerate climate action in the run-up to COP27. Its purpose is to build mass participation and engagement, bringing people together from different countries, informing and educating, building solidarity, and creating connections.

Walk2COP27 is based around a virtual journey from Glasgow (host city for COP26) to Sharm El-Sheikh (host city for COP27). There are 12 participating cities between Scotland and Egypt, and each will host a hybrid or virtual Townhall meeting that showcases the way climate change is impacting them and the solutions that are being deployed.

Walk2COP27 is open to participants from around the globe. Organisations, teams, and individuals can participate by tracking their kilometres travelled on an app in their own locations. Trees will be planted by the [Jane Goodall Institute](#) for kilometres travelled (walked / run / cycled or travelled in a wheelchair).

Participants can share their climate-related projects, and learn from others via the planned Townhall meetings, a participants' forum on Clubhouse, and social media.

Towards the end of our journey, participants will contribute to a proclamation which will be delivered to the formal participants at COP27.
